Struct. DES I/Polytech School  
University of Patras  
Rio Patras, 413450  
GREECE

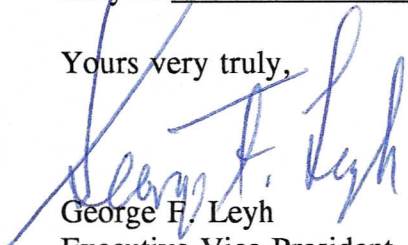

Dear Mr. Papadakis:

On behalf of the ACI Board of Direction and the Committee on Awards for Papers, I am happy to notify you of the selection of your co-authored paper, "Fundamental Modeling and Experimental Investigation of Concrete Carbonation," for the Wason Medal for Materials Research.

Presentation of this award will be made at the Awards Breakfast at the 1993 Annual Convention in Vancouver, British Columbia, when we shall be pleased to have you present as ACI's breakfast guest to receive the award. Information regarding the Awards Breakfast will be forthcoming as the convention approaches.

To make certain our information is up to date, please fill out and return the attached form (to the attention of Dot Kirk) along with a black and white glossy photograph and a 35mm color slide of yourself by December 18, 1992. These will be used in conjunction with the news story in Concrete International and the awards presentation.

Yours very truly,

  
George F. Leyh  
Executive Vice President
